Qualification inspection (reduced testing) (sample size - 2 units each coil voltage and 1 unsealed unit): See table III.

If the relays produced for MIL-R-39016/41 are similar in construction and design except for the suppressor and steering diodes to the relays produced for MIL-R-39016/42 and MIL-R-39016/43, then reduced testing for qualification of MIL-R-39016/41 relays may be performed concurrent with or subsequent to successful qualification of MIL-R-39016/42 and MIL-R-39016/43.
